

French Civil Aviation **Training Network**

Aviation training organisations in the form of a cluster aiming at “fostering excellence in aviation training - made in France” on foreign markets. Thanks to technical and commercial synergies, aviation training organisations wish to provide a comprehensive, integrated, competitive and qualitative range of training courses so as to meet the global aviation market demand

TOGETHER TOWARDS EXCELLENCE
IN AVIATION TRAINING

Training Partners gather commercial and technical synergies ensuring a coherent level of requirements to better respond to the training needs of our customers.

- Offering training courses «made in france» complying with the highest international quality standards at competitive economic conditions
- Offering the most comprehensive range of training courses in the field of aviation to meet all our clients' needs worldwide
- Developing the necessary toolbox to foster this whole range of training courses together
- Sharing resources as regards marketing, commercial offers and conclusion of contracts
- Offering tailor-made solutions for international markets taking into account specificities and capacities.

A comprehensive, integrated, competitive and qualitative range of training courses calibrated to meet the specific demands of the global aviation market

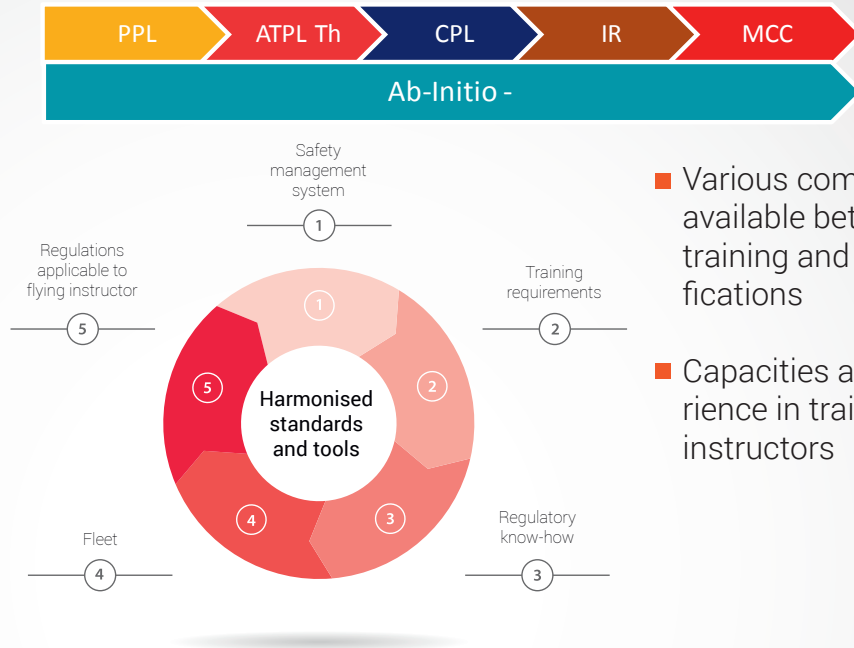

Pilot training organisations issuing licences ...
